Peasants In Armor — Terms of Service

Effective date: October 17, 2026
Last updated: October 17, 2026
Developer/operator: That Ninja
Support contact: thatninja1037@gmail.com

These Terms of Service ("Terms") govern access to and use of *Peasants In Armor* ("Game"), including its online services, player accounts, character systems, in-game text chat, and any related features operated by That Ninja ("That Ninja," "we," "us," or "our").

By creating an account, accessing, or using the Game, you agree to these Terms. If you do not agree, do not create an account or use the Game.

1. Eligibility

The Game is intended for players aged **13 or older**. By using the Game, you represent that you meet this age requirement and that your use of the Game is permitted by the laws that apply to you.

If you are under the age of legal majority where you live, you should review these Terms with a parent or legal guardian. Your parent or legal guardian may need to consent to your use of the Game where required by applicable law.

The Game is not intended for children under 13. If we learn that an account belongs to a child under 13, we may restrict or terminate the account and take appropriate steps regarding associated personal information, subject to applicable law.

Before publication: Confirm whether the Game will technically or operationally prevent under-13 users from registering, and determine how age-related reports will be handled.

2. Accounts and account security

Some Game features require an account. You agree to provide accurate information when creating or maintaining an account and not to impersonate another person or misrepresent your identity in a deceptive or harmful way.

You are responsible for keeping your account credentials confidential and for activity carried out through your account, except to the extent applicable law provides otherwise. Notify us at **thatninja1037@gmail.com** if you suspect unauthorized access to your account.

Do not use another person's account without permission, attempt to obtain another player's credentials, or sell, transfer, or share accounts in ways that violate Game rules or compromise account security.

We may limit account creation, access, or activity to protect players, the Game, or our systems.

Important security condition: The operator has indicated that passwords may currently be stored in plaintext. This is an urgent security issue. The Game should not launch or continue accepting real

account passwords in that state. Passwords should be stored using a reputable password-hashing method, not as readable text. This document does not represent that password storage or account security is currently safe.

3. Acceptable use and player conduct

You may use the Game only for lawful purposes and in accordance with these Terms and any rules or instructions displayed in the Game.

You must not:

- Cheat, exploit bugs, or use unauthorized tools to gain an unfair advantage.
- Intentionally exploit vulnerabilities, interfere with normal gameplay, or disrupt the Game or its servers.
- Attempt unauthorized access to accounts, server infrastructure, or other systems.
- Distribute malware, conduct attacks, or interfere with the availability or integrity of the Game.
- Harass, threaten, intimidate, or abuse other players.
- Impersonate another player, the developer, a moderator, or another person in a deceptive or harmful way.
- Steal, compromise, or attempt to obtain another person's account or credentials.
- Use in-game text chat to send unlawful, threatening, harassing, fraudulent, or otherwise abusive content.
- Spam, flood, or misuse chat or other Game systems.
- Circumvent account restrictions, suspensions, or bans.
- Use the Game in a way that violates applicable law or infringes another person's rights.

These examples are not exhaustive. We may act against other conduct that materially harms players, the Game, or its operation.

4. In-game text chat and player content

The Game includes in-game text chat. You are responsible for the text and other content you submit through the Game (“Player Content”).

Do not post personal information that you do not want other players to see. Do not use chat to threaten, harass, defraud, impersonate, or unlawfully target others.

We may review, moderate, remove, restrict, or preserve chat content when reasonably necessary to enforce these Terms, investigate reports, protect players, maintain the Game, or comply with legal obligations. The exact availability of chat logs, automated moderation, reporting tools, and retention

periods depends on the Game's actual implementation and should be described accurately in the Privacy Policy.

You retain any rights you have in content you create, subject to the rights necessary to operate the Game. By submitting Player Content, you grant That Ninja a limited, non-exclusive permission to host, store, transmit, display, and process that content as reasonably necessary to provide, maintain, moderate, and protect the Game and to enforce these Terms. This permission ends when the content is deleted from active systems, except where continued retention is reasonably necessary for backups, security, dispute resolution, or legal obligations.

You must have the rights and permissions needed to submit the content you post.

5. Game content and permitted use

The Game, including its original software, artwork, design, names, graphics, audio, text, and other materials, is owned by That Ninja or its respective rights holders, except for third-party materials and Player Content.

Subject to these Terms, we grant you a limited, personal, non-exclusive, non-transferable, revocable permission to access and play the Game for personal, non-commercial entertainment.

Unless we expressly authorize it in writing or applicable law permits it, you may not:

- Copy, redistribute, sell, sublicense, or commercially exploit the Game or its assets.
- Repackage or distribute the Game, its assets, or substantial portions of its content.
- Reverse engineer, decompile, or attempt to derive source code, except where applicable law does not permit this restriction.
- Use the Game's name, branding, artwork, or other assets to suggest an official affiliation without authorization.

No ownership of the Game or its intellectual property is transferred to you through your use of the Game.

6. Characters, progression, statistics, and virtual items

The Game may store character information, progression, gameplay statistics, records, and other in-game state associated with your account.

These are game features, not a promise of permanent storage or ownership of any real-world property. We may change, reset, balance, remove, or discontinue game features and associated data when reasonably necessary to operate or update the Game, respond to abuse, correct errors, or address technical issues, subject to applicable law.

Do not assume that characters, progression, statistics, or other in-game content can be transferred, recovered, sold, or exchanged for real-world money.

If paid content, subscriptions, virtual currency, or other monetized features are introduced later, we will provide any additional terms and disclosures required for those offerings. These Terms do not promise that any particular monetization model will be introduced.

7. Updates, availability, and changes

We may update, maintain, modify, suspend, or discontinue all or part of the Game, including online services, servers, features, and supported platforms.

The Game may be unavailable because of maintenance, outages, technical problems, security incidents, third-party service interruptions, or other circumstances. We do not guarantee uninterrupted or error-free availability.

We will make reasonable efforts to communicate significant service changes where practical, but do not promise advance notice of every outage, update, or interruption.

8. Moderation, suspension, and termination

We may investigate suspected violations and take action proportionate to the circumstances, including warnings, chat restrictions, removal of content, temporary suspension, permanent account termination, or other access restrictions.

Possible grounds include:

- Cheating, exploits, or unauthorized gameplay manipulation.
- Harassment, threats, abuse, or serious misuse of chat.
- Account theft, credential misuse, or prohibited account sharing or trading.
- Attacks on servers, unauthorized access, or disruption of the Game.
- Impersonation, fraud, or other deceptive conduct.
- Violations of applicable law or these Terms.

Where appropriate and practical, we may consider the severity and frequency of conduct, its impact, and any relevant explanation. We do not promise that advance notice, a warning, an appeal process, or a particular sequence of moderation steps will be provided in every case.

You may stop using the Game at any time. You may request account deletion using the contact and in-game methods described in the Privacy Policy, once those procedures are implemented and available.

Termination may affect access to characters, progression, statistics, and other account-associated data. Data may remain in backups or records for a limited period or where retention is otherwise justified, as described in the Privacy Policy.

9. Third-party services

The Game may rely on third-party services, including Oracle Cloud Infrastructure for hosting, and may offer Discord Rich Presence integration.

Third-party services are governed by their own terms and privacy practices. We do not control third-party services and are not responsible for their independent operations, except where applicable law provides otherwise.

Discord Rich Presence may display Game activity information through Discord. The precise activity fields displayed and any related data flows depend on the implementation. Do not assume that Discord account linking, Discord authentication, or transmission of a player's Game account credentials is part of this feature unless expressly stated.

10. Privacy

Our handling of personal information is described in the **Peasants In Armor Privacy Policy**, which should be read together with these Terms.

By using the Game, you acknowledge that information may be processed as described in that policy, subject to applicable law. The Privacy Policy should accurately describe the information actually collected, the purposes for which it is used, relevant service providers, retention, and the available account-deletion process.

11. Disclaimers

To the fullest extent permitted by applicable law, the Game is provided “as is” and “as available,” without warranties of any kind, whether express, implied, or statutory, including implied warranties of merchantability, fitness for a particular purpose, title, and non-infringement.

We do not warrant that the Game will always be available, secure, uninterrupted, error-free, or compatible with every device or configuration. Nothing in these Terms excludes a warranty or other right that cannot lawfully be excluded.

12. Limitation of liability

To the fullest extent permitted by applicable law, That Ninja will not be liable for indirect, incidental, special, consequential, exemplary, or punitive damages, or for loss of profits, revenue, data, goodwill, or gameplay progress arising from or related to the Game or these Terms.

To the fullest extent permitted by applicable law, That Ninja's total liability for claims arising out of or relating to the Game or these Terms will be limited to the amount, if any, you paid directly to That Ninja to use the Game during the 12 months before the event giving rise to the claim.

If you have paid nothing, this provision is not intended to create a payment obligation or to exclude liability where applicable law does not permit such a limitation. Nothing in these Terms limits liability that cannot legally be limited under applicable law.

Review before publication: Have this section reviewed for enforceability under applicable Washington and other relevant laws, especially because the Game is intended for players aged 13 and older.

13. Indemnification

To the extent permitted by applicable law, you agree to be responsible for claims or losses arising from your unlawful use of the Game, your material violation of these Terms, or your infringement of another person's rights. This section does not require you to indemnify That Ninja for matters where applicable law prohibits such an obligation.

14. Governing law and disputes

These Terms are intended to be governed by the laws of the State of Washington, United States, without regard to conflict-of-law principles, except where another law must apply.

Any court venue, jurisdiction, informal dispute process, or arbitration arrangement must be specified only after the operator has confirmed the intended procedure and its legal enforceability. Nothing in these Terms prevents you from exercising rights that cannot lawfully be waived.

Operator completion required: Confirm the intended court venue and whether any additional dispute-resolution terms are appropriate before publication.

15. Changes to these Terms

We may revise these Terms as the Game changes. The “Last updated” date at the top indicates when the document was most recently revised.

For material changes, we intend to provide notice through the Game, an official website, or another appropriate channel where practical. The actual notice method should be implemented and verified before promising it as a standard practice.

Your continued use of the Game after revised Terms take effect means you accept the updated Terms to the extent permitted by applicable law. If you do not agree, stop using the Game.

16. Severability and entire agreement

If any provision of these Terms is found unenforceable, the remaining provisions will remain in effect to the extent permitted by law.

These Terms and the Privacy Policy, together with any additional terms clearly presented for specific features, form the agreement governing your use of the Game, subject to applicable law.

17. Contact

For questions about these Terms, account issues, moderation, or account deletion, contact:

That Ninja
Email: thatninja1037@gmail.com

Before publication: Add an official website or in-game link to these Terms if available, and verify that the contact email is monitored and that the advertised account-support procedures work.
